

Hot work

🕒 Duration : 60min

FRENCH

ENGLISH

SPANISH

Defined as any activity that uses open flames or that generates heat and sparks, hot work represents a growing cause of fire or explosions throughout the world.

The challenges are huge and this is why workers must remain aware of the impact they have on their own safety, as well as that of other workers. They must know all the safety rules linked with their profession.

🎯 Target audience

It is intended for any worker involved, directly or indirectly, in work that can increase fire hazards in his/her work environment.

☰ Teaching and evaluation methods

The learning method for this online training is based on interactivity, dynamism and self-learning. The training will be done at the pace of the learner and according to his/her availability. Your understanding and skills will be evaluated at the end of each module.

You'll need to correctly answer all the questions in the current module, which will be presented in « true or false » or « multiple choice » questions to continue your progress. If you fail, you'll have to repeat the module.

🔑 Legal notice

There are no legal notice associated with this training. No other training or experience is required.

⚖️ Intellectual integrity

Given the seriousness of the approach and the importance of the knowledge acquired through this training, the team of OHStraining invites you to respect the integrity of the training and its questionnaires.

We suggests you answer to the best of your knowledge, that is, without help and without plagiarism.
