

Lift Truck/Telescopic Lift Truck

Introduction

The "Lift Truck/Telescopic Lift Truck" training course was developed by a team of professionals who wanted to improve efficiency measures and respect for occupational health and safety standards. This 120-minute training course can be taken at any time.

Description

The forklift is one of the greatest industrial innovations of the past century. Its creation has completely modified the working habits of thousands of companies in the world. Carrying out work that needs these lift trucks requires the application of safe working methods as well as compliance with established standards. In order to be able to operate the equipment safely, it is essential that the user know all the safety rules that apply to his/her profession. In addition, he/she must know and be able to control the related risks in order to avoid difficult or hazardous situations.

Target Population

This training course is primarily intended for regular and casual workers who want to use a lift truck or telescopic forklift for handling. Whether you work in the industrial or construction field, or you are simply interested in acquiring new skills, this training is for you.

Prerequisites

There is no prerequisite for this training course. No other training or experience is required to take this training.

Targeted Learning and Targets of Learning Modules

Module 1	Introduction
Module 2	The Risks of Accidents
Module 3	Basic Knowledge
	<ul style="list-style-type: none"> › Description of the forklift truck › Forklift truck components › Safety devices
Module 4	Complementary Knowledge
	<ul style="list-style-type: none"> › Driving power › Nominal capacity › Tires
Module 5	The Main Accessories
	<ul style="list-style-type: none"> › Mechanical accessories › Hydraulic accessories
Module 6	Stability (1 of 2)
	<ul style="list-style-type: none"> › Basic understanding
Module 7	Stability (2 of 2)
	<ul style="list-style-type: none"> › Frontal tip-over › Lateral tip-over › Means of prevention
Module 8	Inspection and Preventive Maintenance

Module 9	Safe Driving (1 of 2)
	<ul style="list-style-type: none"> › Personal protective equipment › Before moving with the forklift truck › When moving
Module 10	Safe Driving (2 of 2)
	<ul style="list-style-type: none"> › Specific maneuvers › Stacking/unstacking › End activities
Module 11	Telescopic Lift Truck (1 of 3)
	<ul style="list-style-type: none"> › What is it? › Work area › Stabilizers
Module 12	Telescopic Lift Truck (2 of 3)
	<ul style="list-style-type: none"> › Preparation before starting to work › During work › Hand signals
Module 13	Telescopic Lift Truck (3 of 3)
	<ul style="list-style-type: none"> › Operating the truck under the influence › Stopping and parking › Transfer and transportation
Module 14	Lifting a Worker
Module 15	Lift Truck and Pedestrian Coexistence
Module 16	Conclusion

Evaluation Method of Learning

The development of the targeted competencies will be evaluated so as to ensure full understanding after each of the modules. To proceed to the next module, it is necessary to correctly answer all the questions of the module in progress. In the event of failure, you will have to take this module again. A series of questions in the form of true or false or multiple choice will be asked throughout the different modules. The success threshold is 100%.

Note on integrity, plagiarism and fraud

Given the seriousness of the approach and given the importance of the knowledge gained through this training course, the team of OHStraining Inc. invites you to respect the integrity of the training and its questionnaires and suggests you to answer to the best of your knowledge, that is, without help and without plagiarism.

Teaching and Learning Method

This training course was created based on the skills training approach. This notion promotes not only the acquisition of knowledge, but also the integration of knowledge in practice. The learning method for this course is online training and focuses on interactivity, dynamism and self-learning. The training will be done at the pace of the learner and according to his/her availability.

The masculine gender used in this document and in the content of the modules refers to both women and men.
